# About SKETCH

**Build upon the Origin of  
Corporate Philosophy**

**Creative and versatile  
Human Resources**

**Pioneering spirit**

**Organization with flexibility**

**Respect for people**

These are the assets on which  
we build ourselves as an  
advancing architectural,  
interior Design Consultancy and  
Construction Company

Over Fourteen years of service experiences with excellence in Architectural design for spaces, Interior decoration and property constructions have already brightened the name **SKETCH**, in the sector, We are grateful to our clients for extending Support and cooperation and also for offering us opportunities to serve entities both in private sectors. We express our determination to remain with our existing and prospective clients at the right time and the right place. We proudly ensure our presence as a contributor than a mere service provider when our customer badly requires someone to support fulfilling their organizational goals

**Architect Nasima Mostafa**  
Chairman

# APPROACH

All projects at SKETCH are examined, based on its first principles on how to passively provide the fundamentals of comfort, safety, liveability and yet sustainably respond to local climate and ecology while remaining economically viable and globally pertinent. We have pioneered this approach by operating beyond the traditional precincts whilst addressing the user brief and aspiration and building to perfection.

# S O U L

All our design are rooted in **Sustainability, Optimisation, Uniqueness** and **Liveability**. These parameters define the enquiry process that shapes the architecture of **SKETCH**.

# SUSTAINABLE

Our belief in sustainability shapes all our projects. It is not treated as a layer of applied technology on building systems but forms the very basis of our design. Each project is conceived through a research-oriented approach to policy, planning, design, technology, passive and low energy design. Our endeavour is to design in a manner that reduces consumption of resources and energy resulting in buildings consuming lesser energy to meet Green Building Benchmarks through passive design and microclimate creation, Proven through post occupancy evaluation.

# UNIQUE

# OPTIMIZED

We understand that we are often working in an environment with limited resource hence, we deploy passive strategies by responding to the local climate ecology and address comfort, safety, livability parameters and are mindful that projects remain economically viable and globally pertinent. With a socio-cultural response to design, our works reduce energy and water dependence by increasing the number of comfortable habitable hours with minimum reliance on mechanical means.

Architecturally we celebrate identity and diversity versus visual homogeneity. We think of our buildings and cities as an important social and cultural interaction spaces, places of human interaction along with being place of human habitation. This ensures all our projects are unique, whilst responding to the client, climate, context and the end-users.

# LIVEABILITY

The end-user always sits at the center of our design process in our approach to building smart environments. We consider mobility, security, outdoor comfort, technology, health and well-being, ease of facility management and disaster readiness to create spaces that work equally well for all users.

# “Every building must have it’s own soul”

- Luis I Kahn

SKETCH and its members are inspired by this motto of Famous Architect Luis I Kahn.

SKETCH is always devoted to bring the ultimate satisfaction for their users. But SKETCH also believes every structure has its own SOUL within itself, hence the organization keeps that in mind while every execution no matter how big or small details within any project.

While working as any project SKETCH keeps such notes as:

- » Any Structure and Interior must stand the test of time.
- » Intuition is Important
- » Treating every project individually
- » Staying authentic
- » Designing is a Team Sport
- » Mix and Match is FUN
- » Quality is the Key
- » Balance between Form and Function

# Our Working Process

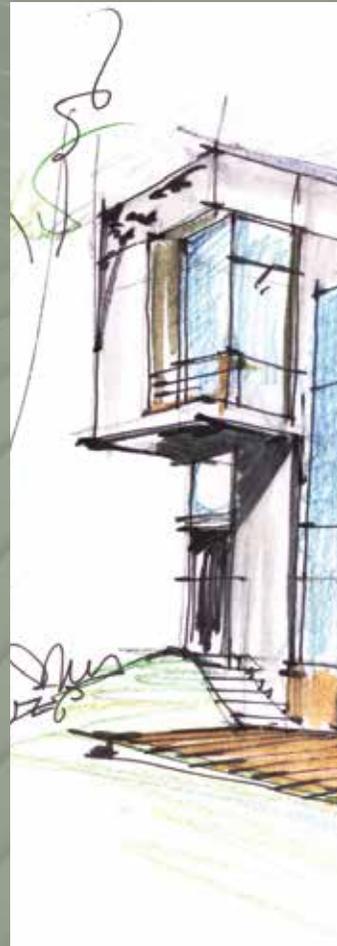

## WHAT YOU CAN EXPECT FORM OUR DESIGN PROCESS (PHASES 1,2 & 3)

Have you ever wondered what the design process takes to get from the space you see every day to the one that feels Bold, Beautiful and Courageously vibrant?

Let us tell you, it's far more involved and strategic than selecting fabrics and furnitures!

A Project design is a big **ENDEAVOR**, but comes with **excitement**, dearming **big and Planning** for more than the life you live . . . . . we'll design the **life you want to live**.

More of less both phases kinda like this.....

### **Phase 1 Schematic Design**

Project Kickoff & Discovery  
Scheduling  
Primary Space Planing  
Conceptual CAD Design  
Furnishing Investment Development

### **Phase 2 Design Development**

Computer generated Realistic Renders  
(3D)  
Material and Furnishing Specifications  
Budget Review  
Consturction Documentation

### **Phase 3 Executuion**

Mobilization  
Material Purchase  
Construction  
Finishing  
Successful Handover

## Our Expertise

### **Architectural Design**

#### 1. Architectural Space Design

Commercial  
Residential  
Hospital  
Hotel and Hospitality  
Industry  
Educational Spaces

#### 2. Interior Design

Commercial  
Residential  
Hospital  
Hotel and Hospitality  
Restaurant  
Industry  
Facade Design  
and Landscape design

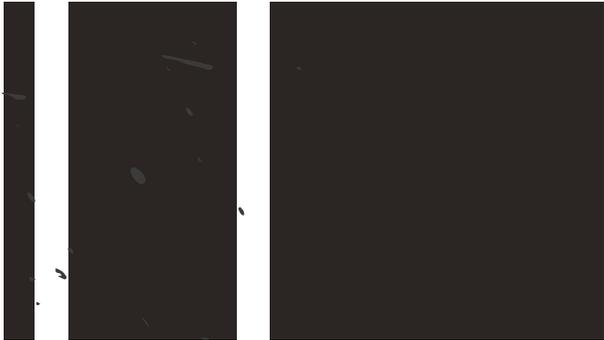

### **Structural Design**

Building Structural design  
Pre Fabricated Steel Structure Design  
Compound and Complex Structure Design

-  Electrical Design
-  Plumbing Design
-  HVAC Design
-  Fire Protection System Design

**THE**

**TEAM**

## — KEY MANAGEMENT —

1. **Nasima Mostafa**  
Chairman
2. **Quazi Monowar Uddin Ahmed,**  
Managing Director
3. **Md. Shahriar Pavel,**  
Director & CEO
4. **Engr. M. Immrozzoha Kamal,**  
Director (Engineering and Services)

## Chief Architect:

Aminur Rahman,  
Architect, FIAB

## Architects:

1. Quazi Monowar Uddin Ahmed, Chief Designer
2. Nasima Mostafa, Architect, B. Arch
3. Muhtasim Zabin, Architect, B. Arch

### **Administration:**

1. S H M Kawsar, Director (HR and Marketing)
2. Md. Faizul Alam (Biddut), Executive Director
3. Sheikh Salehuddin Daniel, Head of Business Strategy

### **Admin Team:**

1. Md. Abdus Sabur Khondokar, Accountant
2. Mohammad Rafiq-uz-Zaman, Marketing Executive

### **Designer Team:**

1. Shakhawat Hossen Sumon, Diploma in Architecture
2. Md. Monir Hawlader, Diploma in Interior Design
3. Raju Ala, 3D Visualizer
4. Md. Zahid Hassan, 3d Visualizer

### **Civil Engineer's Team:**

1. Engr. Md. Harunor Rashid, Civil (BUET)
2. Engr. Nur Islam, Civil (BUET)
3. Md. Saidur Rahman (B.Sc)

### **Electrical Engineer's Team:**

1. Engr. Asad-uz-Zaman, B.Sc(BUET), MIEB
2. Engr. Nazrul Islam, Dip- in- Eng (Elec) MIDEB

— OUR VALUABLE CLIENTS —

**PADMA MULTIPURPOSE  
BRIDGE PROJECT**

A modern living room interior. In the foreground, a grey fabric sofa with three blue cushions is positioned. The background wall is a large, abstract artwork with shades of blue and white, resembling a forest or a textured wall. The lighting is soft and even.
